10	THE WITNESS: Oh, yes, sir. I'm sorry.	10	A No, ma'am.

18	A When he started running back towards me, he	18	Q Were you intending at that time to make
19	crouched behind the backhoe bucket underneath the	19	contact with him to learn more information?

21	Q How far would you estimate he was from where	21	Q So when he hid behind the backhoe, describe
22	you were standing at that point?	22	what happened next.
23	A If I had to make a rough estimation and,	23	A He hid behind the backhoe bucket, and I I
24	again, this is just an estimation I would say	24	illuminated him with my flashlight to try to get a
25	probably 30 to 35 feet.	25	better view of what he was doing.

2	A No, I never placed my knee on his neck.	2	Mr. McBrayer down on the ground?
3	Q Did you ever hold his face down in the dirt?	3	A Yes, ma'am.
4	A No, ma'am.	4	Q Were you able to see what kind of contact he
5	Q Did you put your hands on his shoulders to	5	had with Mr. McBrayer?
6	hold him down?	6	A I know that he was trying to get control of
7	A Yes, ma'am.	7	his arm.
8	Q Do you recall putting your hands on his neck	8	Q At that point, were you able to observe
9	at any point?	9	Mr. McBrayer breathing?
10	A Yes, ma'am.	10	A Yes.
11	Q And describe those to me.	11	Q Was he talking?
12	A So let me let me be clear. After watching	12	A He was.
13	the video, it did appear as if I put my hand on the	13	Q Do you know what he was saying?
14	back of Mr. McBrayer's neck.	14	A He was yelling a lot of the or he was
15	And the purpose for that is because of the	15	saying a lot of the same things that he was saying
16	training that I have. Wherever your head goes, your	16	before "God hates you." And he was saying other
17	body is going to go. So even though my hand was on his	17	things. I just I don't recall exactly what he was

19	pressure or holding his face in the dirt. You can	19	Q Okay.
20	actually see in the video that he's able to move his	20	A The one that really sticks in my mind is "God
21	head around.	21	hates you."
22	So the reason that I placed my hand on his	22	Q Did you see Deputy Spurgeon pull out his
23	neck was if he did attempt to get up, then I was able	23	TASER CEW?
24	to control his head to keep him from getting up.	24	A I did.
25	Q Were you able to see well, let me just ask	25	Q At what point was that?
	Page 72		Page 73
1	A When we initially went to the ground,	1	But I do know that once you move away from that
2	Mr. McBrayer was on his back, and we were trying to get	2	contact, then it's no longer effective.
3	him to roll over because it's easier to control what	3	Q Do you know in what location Mr. McBrayer's
4	he's doing when he's on his stomach. You know, we were	4	body that Deputy Spurgeon applied his TASER?
5	also attempting to take him into custody at that point,	5	A If I may, I would just rather refer you to
6	put handcuffs on him. And that would be done behind	6	the video because I I don't recall exactly where,
7	his back.	7	and I don't want to be wrong.
8	So at that point, we're giving him verbal	8	Q Now, in drive stun mode, based upon your
9	commands to roll over. He's still actively trying to	9	training, is that able to cause NMI?
10	pull his arms away from us. And Deputy Spurgeon did	10	A Not no, not to the degree that not to
11	utilize his TASER to try to gain compliance.	11	the degree that deploying that TASER and actually
12	Q Did you actually see him to attempt to	12	getting the spread of the probes would. But, yes, to
13	utilize his TASER?	13	some degree it does.
14	A Yes, ma'am.	14	Q What is the purpose of a drive stun?
15	Q And how did he do that?	15	A The purpose of a drive stun is essentially

23

24

25

A So he did what they call a drive stun. So there's two ways to deploy a TASER. You either deploy the cartridge or you can do what they call a drive stun, which is where you remove the cartridge and you activate the TASER against their skin. So attempted to do use a drive stun.

As soon as -- at some point, Mr. McBrayer was able to just pull away from it. He was able to move his body away from the TASER so it -- I'm not going to attest to what effect it had because I don't know that.

A The purpose of a drive stun is essentially 16 just to -- it gives you that brief moment of connectivity so you can follow on. Essentially it just buys you time for a follow on.

Q And based upon your training, is it for pain compliance only?

A Yes.

Q Based upon your observation, did it have any effect on Mr. McBrayer?

1	A Based on my observation, no, because we still	1	Mr. McBrayer. And the entire time he was actively

3	Q How did you how were you eventually able	3	able to pull his arms out from under him and get them
4	to get the handcuffs on?	4	behind his back in a manner to be able to handcuff him.
5	A Essentially myself and Deputy Spurgeon were	5	Q I understand from your prior testimony there

8	we were able to get Mr. McBrayer's arms behind his back	8	Q And why was that?
9	and put him in handcuffs.	9	A A hobble strap was used because, you know,
10	Q And so did other deputies assist in getting	10	obviously Mr. McBrayer had fled and fought with us to
11	him handcuffed?	11	some degree. And a hobble strap prevents someone from
12	A Yes, ma'am.	12	being able to kick.
13	Q And who was that?	13	Q Had he been kicking prior to that?
14	A I don't know directly who was involved in	14	A I don't recall. But it also keeps him from
15	handcuffing him.	15	being able to flee because it bounds his feet together.
16	Q Do you recall what other deputies arrived to	16	And, I'm sorry, let me if you don't mind,

It is a nasal spray. 18 I take it out. It's got a place that I put my fingers 19 on the top, my thumb goes on the bottom. And all I do 20 is insert it in your nose, squeeze the bottom, and it 21 shoots that spray into your nose. 22 Q I'm trying to get through this without
